

ATHAYA ABDAN HANIF

Java Backend Engineer

+62 819 5819 1239 | athayahanif.18@gmail.com | Jakarta, Indonesia | [linkedin.com/in/athayahanif](https://www.linkedin.com/in/athayahanif)

Detail-oriented Java Backend Engineer with a strong foundation in Spring Boot, RESTful API development, and system architecture. Built multiple production-ready Spring Boot applications including a finance tracker with JWT security and an automated inventory prediction system for UMKM. Published ML research (97% accuracy). Seeking a junior backend role where I can write clean code, collaborate with experienced engineers, and contribute to real-world projects.

Technical Skills

- **Backend:** Java 21+, Spring Boot 3/4, Spring Security, JWT, Spring Data JPA, Hibernate, Maven, RESTful APIs, Swagger/OpenAPI
- **Database & Infrastructure:** PostgreSQL, MySQL, Docker, Git & GitHub, Microservices (basic concepts)
- **Others:** Python, SQL, Golang, NumPy, Pandas, Scikit-Learn, System Design
- **Portfolio:** [tayaya-pnck \(Athaya Abdan Hanif\)](#)

Project Experience

Personal Finance Tracker (Java Spring Boot) | 2026

- Developed a secure personal finance application using Spring Boot 4 and Java 21
- Implemented stateless authentication with Spring Security and JWT for protected API access
- Built complex financial calculations using Java Streams API and BigDecimal for precision
- Integrated with PostgreSQL and used Jackson for advanced date-time serialization
- Created a responsive React dashboard that consumes the API with Axios and custom CORS configuration

Automatic Inventory Stock Prediction for UMKM (Java + ML Integration) | 2026

- Built a RESTful API using Spring Boot to serve inventory predictions based on historical sales data
- Trained a time-series forecasting model using Python (Scikit-learn/Pandas) – achieved ~85% accuracy in predicting stock shortages
- Integrated the ML model into the Java backend via a REST endpoint, demonstrating cross-language system integration
- Enabled hypothetical UMKM use case: reducing manual forecasting time and optimizing reorder schedules

Gym Reminder & Progress Tracker (Java Spring Boot) | 2026

- Developed a lifestyle productivity backend with automated notification scheduling and workout tracking
- Used Spring Task Scheduling to trigger reminders based on user-defined workout frequencies
- Designed a relational database schema in MySQL for users, workout plans, and exercise history
- Leveraged Lombok to reduce boilerplate code and Spring Data JPA for efficient database queries

FindQuest – Gamified Gig Job Platform (In Development) | 2026

- Architected the cloud backend infrastructure using Supabase and PostgreSQL.
- Designed the relational database schema to handle user locations, gamified points, and task queues.
- Collaborated on the Product Requirements Document (PRD), translating business requirements and gamified features into technical backend specifications.

Respiratory Disease Classification (ML Publication) | 2025

- Co-authored a hybrid CNN-BiGRU model for respiratory disease classification
- Achieved 97% accuracy – published at Brawijaya International Conference 2025

Work Experience

AHA Food (Family Business) | January 2026 - present

Web & Operations Assistant

- Built, deployed, and currently maintain the company's business website to drive digital sales. [AHA Food — Premium Frozen Seafood dari Sulawesi Selatan](#)
 - Support daily business operations, translating business needs into digital marketing strategies.
-

Education

Ary Ginanjar University | Sep 2021 – Aug 2025

Bachelor of Computer Science | GPA: 3.49 / 4.00

- School of Technology Scholarship recipient
 - Communications Strategist, Student Representative Council (DPM)
-

Publications

- *Classification of Respiratory Disease Based on Audio Using Hybrid CNN-BiGRU and Adaptive Denoising* – Brawijaya International Conference 2025
 - Strategic Synergy: Integrating Business Management with Computer Science for Competitive Advantage - [TechComp Innovations: Journal of Computer Science and Technology](#)
-

Awards & Languages

- Awards: P2MW Founding Program Award Recipient; Finalist at Binus Business Plan Competition
- Languages: Indonesian (native); English (IELTS 7.0 – fluent)
